That's correct, it's for the cost of the contractor to conduct the classes.

The HAZWOPER refresher is for those deploying that need it(not available online), and the CPR class is also for those deploying into the field.

2 questions...

What would we be paying for (contractor cost ??) For the 8-hour HAZWOPER, can the people just take the courses off Skilport (so there would be no costs)?

Are these people who normally should be taking HAZWOPER and CPR, and are just either due or behind... or are these people that are not expected to take either one for their normal jobs?

With Regards, Steve

Subject: Question on MA use

Hi Steve,

We've seen two 213-RR's for training (one for 8 Hr HAZWOPER and one for CPR training). Is this something that can be charged under MA #3? Seems strange to us.
